

Love Is a Reason

Copyright 2004 Richard Ruane

I had known love before
Good times, but nothing more
We played our parts awhile
And left for other roles
I took each love affair
With a calm and casual air
Until you came along
I was always in control

But you
You showed me what I was waiting for
Something that I'd never known before
Love is a reason to live

Never cared for romance
Sweet words never had a chance
Plain and level thoughts
Were all I had in mind.
Before you came around
My feet stayed on the ground
I never had a thought
Of what I might yet find

But you
You showed me what I was dreaming of
What I never knew the true meaning of
Love is a reason to live

But you
You showed me what I was waiting for
Something that I'd never known before
Love is a reason to live
Love is a reason to live
Love is a reason to live
